G3 is unable to secure the Australia ETA on your behalf. Please follow the below steps to secure your Australia ETA:

- ☐ In order to secure your Australia ETA, you must first download the free mobile application by visiting the App store on your Iphone or Android mobile device:

For Apple devices: <https://apps.apple.com/au/app/australianeta/id1527982364>

For Android devices: https://play.google.com/store/apps/details?id=au.gov.homeaffairs.eta&hl=en_AU&gl=US&pli=1

- ☐ One the Australia ETA App has been downloaded, open the App and click on the "+ New ETA" button.
- ☐ You will then be asked to Agree to the "Australia ETA App application consent agreement" and "Application Privacy Notice."
- ☐ You will then be prompted to scan your valid passport , take a live photo, and answer a few basic questions.

Note: You will be required to scan a valid passport and have a valid email address to apply using the Australia ETA app.

1. Passport Scan - Allow the app to scan the passport data page and read the passport chip

A photo of the personal data page of the passport will be taken and the information contained on that page and in the passport chip will be used for the purpose of completing some of the application.

2. Live Photo - Take a live photo of the applicant

The live photo must be of the applicant. The applicant is the person who is named on the ETA application. It must not be a photo of another person. This confirms that person applying for an ETA is the same person shown in the passport.

3. Complete remaining application - Answer a few questions

Not all the information necessary to complete an ETA application can be obtained directly from the passport. The answers to these questions provide more information to assist in the processing of the application.
